

Take Away Homework!

Choose your homework from the table below:

The rainforest layers suggest the difficulty of the task, the higher the task - the trickier it is.

For each half term you must attempt one task from the list.

We expect high quality work which shows research, thought and care with presentation.

Please bring your work back to school to share with the class on **Wednesday 22nd May & Wednesday 17th July.**

Emergent Layer

Consists of the tallest trees, some birds, and insects. No animals live here

Canopy Layer

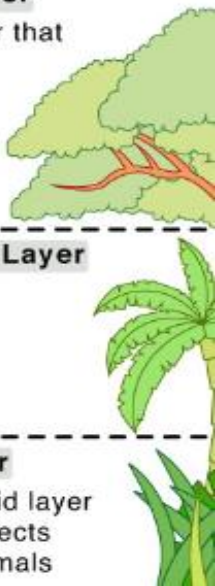

Thickest layer that hosts most flora and fauna

Understory Layer

Consists of young herbs, shrubs, and bushes

Forest Floor

Darkest, humid layer that hosts insects and giant animals

Design and create a collage of a rainforest animal Art	Design and construct your own electrical circuit. Science	Design and make an invention for the future that would prevent the extinction of a species of animal. D&T
Create your own animation on 2Animate, maybe it could be linked to our topic about the rainforest. Computing	Gather some information about the rainforests, find some statistics and present them in line or bar graphs. Maths	Create a piece of rainforest artwork – it could be a landscape picture or an animal portrait. Art
Create a piece of persuasive writing linked to our topic. Maybe you could write to a company asking them to consider ways to help combat the deforestation of the rainforest. English	Research the effects climate is having on the Amazon Rainforest and present in a PowerPoint presentation. Geography	Create a leaflet about our future and what might happen if we don't act upon climate change now. English
Do something to help the environment around your neighborhood and take photographs. Topic	Research rainforest animals' habitats and create a presentation on their life and survival in the rainforest. Science	Choose anything you have been learning about in class, research it more and present it in a form of your choice. Free choice!
