Dear Parents/Carers,

Year 5 DT Project – Fast Moving Motorised Buggies

This half term, every child in year 5 is going to create a fast moving motorised space buggy which combines a frame structure with mechanisms and an electrical circuit. Using junior hacksaws, g-clamps and bench hooks, the children will cut part of the H frame chassis and dowel for axles. Throughout this project, children will have an opportunity to explore existing products, design their product and use tools such as sandpaper and wood adhesive to make their piece. We ask for a payment of £5 towards the cost of the project, to enable each child to make their own buggy which they can bring home with them. Please make payment via [SchoolMoney](#)

Kind Regards,

Mrs Smith

Year 5 Class Teacher
