

Dear Parent/Guardian,

wcnt.immunisation@nhs.net

Children's Nasal Spray Flu Vaccine

Bunbury session date is Tuesday 17th September 2024.

The children's nasal spray flu vaccine is safe and effective. It's offered every year during the flu season to children to help protect them against [flu](#).

Flu can be an unpleasant illness and can cause serious complications. Children can catch and spread flu easily. Vaccinating your child also protects vulnerable family members and friends.

The vaccination is free and is a quick, simple, and painless spray up the nose. Even if your child had the vaccine last year, types of flu can vary, so it is recommended to have it annually to maximise protection. Since the flu vaccine programme was introduced, most children offered the vaccine in schools have received the flu nasal spray annually.

For more information about the nasal spray flu vaccine please read the online leaflet: [Protecting your child against flu](#). This leaflet includes information about the small number of children for whom the nasal spray vaccine is not appropriate for. Further information can also be found on the [NHS website](#).

The School Aged Immunisations Team will only vaccinate children with a valid e-consent form. If you DO NOT fill the e-consent form in your child will not be able to have the vaccination in school. To consent to your child having the nasal spray flu vaccine please complete the E-consent form via the link below, using the code for your child's school.

The code for your school is **WC143155**

www.wchcimms.co.uk/Forms/Flu

Please note access to the online form will close Monday 2nd September at 9am. You will be unable to complete the e-consent for after this.

If your child becomes wheezy, has a bad attack of asthma, or has started oral steroids for their asthma after you complete the E-consent form, please contact the team on:
wcnt.immunisation@nhs.net

Yours sincerely,

Cheshire East School Age Immunisations Team
