

Eco committee 2022 update

The next faze for the eco committee

Members

Supervising Teacher :Mrs Badger

Committee Head :Mia Anderson

**Eco Champions:Harriet Stevens, Reuben Yates , Oscar Williams
and Isabella Anderson**

Notes

- **Sadly we have not done much due to covid yet we are still grasping new ideas**
- **We have added two new members. Isabella Anderson and Oscar Williams.**
- **Due to circumstances we have upsettingly lost a member. Scarlett Elis**
- **The eco committee will have a fundraiser to raise**

next ideas

- These ideas are some that are on the front line of being put in place and will be used soon .Us as a committee had a brain storm and carefully picked out our top 5.Here they are...
- To clear the weeds in the school woods
- To plant ferns around the school to absorb as much C02 as possible
- To place more litter bins out side so littering becomes less frequent
- To create a bee garden to hopefully help the endangered species of bees and to help them stay energised
- To buy a compost bin

Why?

- The causes on slide 3 are very important because
- Weeds use up a lot of root space that trees could be using to help themselves grow and trees absorb CO₂
- Ferns are a plant that absorbs the most CO₂ for any plant of its size and some plants that are larger
- Litter that has fallen on the ground often ends up in the ocean where it can harm animals and nearby coral
- Bees have become endangered and now more than ever we must try to keep the population of our striped stinging friends from perishing
- The compost bin will be used for school lunch leftovers so we do not

We hope

- **That by 2025 through other generation of the eco committee that our school will be entirely educated on the importance of being eco friendly**
- **To pass on the eco committee to Yr5 students so that we may carry on**

We hope you are supportive of our actions

- We hope that we have your support through our attempts to help the school gain a better understanding on the importance of being eco friendly.

Thank You for your time
